"THE PEOPLE" A.C. SPORTS. The second annual meeting took place at the club grounds. Moror House Meadow, East Acton Lane, on Monday, and with fine weather and a keen competition for the various prizes, proved a great success. One of the principal events was the 880 yards handicap for a silver cup kindly offered by Mr. W. T. Madge. The hand of the Carter House Gadet Brigade played a popular programme of music, and Miss Bessie Hatton presented the prizes, for which Mr. C. A. Gray proposed a vote of thanks to the young lady, which was given with three times three. Mr. Joseph Hatton, President of the club, in acknowledging the vote on behalf of his daughter, congratulated the committee and the competitors on the very pleasant and successful day's sports, the forerunar he hoped of many no less happy gatherings in the years to come.

public business during the past Session which the country had a right to expect of them that, as Mr. Churchill instity said, is mainly the fault of the Irish Nationalists. The art of obstruction which Parsell ewed to the inspiration of Joseph Biggar, has beer carried to a pitch of perfection which has seriously affected the prestige of Parliament. What is the remody? That is, surely, suggested by the cenduct of the offenders. If the Irish members heasetty endeavoured to eco-perate with their British calleagues to premote useful legislaties, and to maintain the honour and dignity of the House of Commons, it would be sasier to ever-leek the scandal of the enormous over-representation of Ireland in the House of Commons, it would be easier to ever-leek the scandal of the enormous over-representation of Ireland in the House of Commons, it would be easier to ever-leek the scandal of the enormous over-representation of Ireland in the House of Commons, and the enormous officiale and treops. Than publication of the seasities to a selector in the Romford division of Essex, and twelve times that of the word of a was develor in the small Irish borough of Newry has eighteen times the value of that of an elector in the Romford division of Essex, and twelve times that of the word of a was develor in the small Irish borough of Newry has eighteen times the value of that of the vote of a Wandsworth elector. This would be essentially unfair, though it might be accusable, if the Irish members did, or were sent to Westminster to de, the country's work instead of the obstructive it. But it is simply monstrous when the party which profits by it are the sent of the profits have a legislated and the profits have been added to the profits of the capital and will be a country to the fine of the profits have been added to the
